

Corpidex[™] is an easy-to-use, powerful, visual, decision support system for corporate real estate users. It enables real estate managers, department heads and administrative staff to stay on top of space availability and utilization. Plan and execute moves, provide charge back support, re-stack your space, plan and execute changes to floor plans and allocation as well as manage room reservations. Have direct access to all of the information about the portfolio at your fingertips.

YOUR PROPERTIES:

- Interactive Floor plans
- Dynamic Stacking Plans
- Location Maps
- Move Planning
- Room Reservations
- Allocation
- Occupancy Analysis & History
- Reporting
- Charge-back support
- Date sensitivity
- Scenario Drawing
- Documents
- Area Calculations
- Export to MS Visio, WMF & Bitmaps
- Publish Floorplans to PDF

YOUR PORTFOLIO:

- Space Management
- Occupancy Analysis
- Departmental Hierarchy
- Room Type analysis
- Cross Portfolio Analysis

LATEST TECHNOLOGIES:

- Microsoft .NET platform
- SQL Server 2000 & 2005
- Deploy using IE
- Windows Authentication

ADD-ON MODULES:

- Find Room/Person Floor plan Lookup (for your Employee Intranet)
- Outlook Reservations (Office 2003/2007)

Integrate data from multiple sources...

See valuable data in a whole new way. Automate the process of collecting all your Human Resource Data (people), departments, assets and other and data from multiple systems and data sources electronically, with no manual intervention! Add people not in your HR system and track them separately.

Respond to requests faster... and with reduced risk...

Create, save and present multiple space allocation and move scenarios (including people and floor plans). Find and re-demise space to meet departmental needs. Show pictures of the property, the floor(s) and their proximity to conference rooms, bathrooms and other departments.

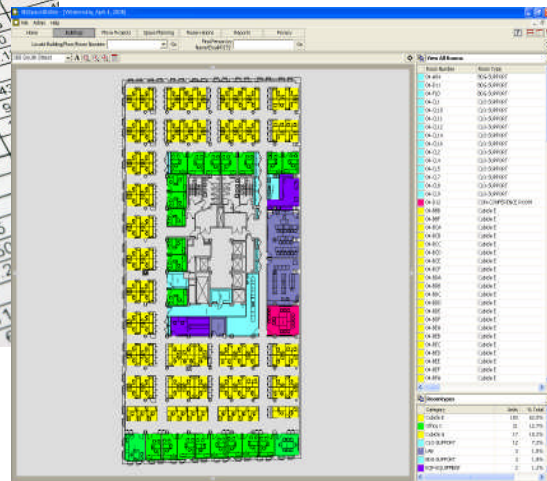

Stay on top of your portfolio and stay in control...

Get co-operation and buy-in from your departments by providing them a means to visualize the current and proposed world. Achieve better accuracy with added scrutiny and attention. Time sensitive occupancy and allocation is supported by area calculation based on BOMA, REBNY® and other measurement standards.

Spot trends... and opportunities!

Develop space occupancy & allocation plans. See where your people are sitting and where there are vacancies at a department, floor, building, region or portfolio level. Determine whether you need to acquire new space or if you can re-deploy your existing space more efficiently.
